Title: National Park Service agreement

Date(s): 1991-2001

Creator: Arnold Arboretum of Harvard University and the National Park Service

Quantity: 1.5 linear feet

Language of material: English

Abstract: In 1991 the Arnold Arboretum signed a cooperative agreement with the National Park Service (NPS) with the purpose of setting up a structure to collaborate on a range of programs and services in the area of historic landscape preservation. One of the goals of the original collaboration was to establish the Olmsted Center for Landscape Preservation as a joint venture of the NPS and the Arnold Arboretum. After extensive planning and research, the administrative complications of joining a Federal agency and a unit of a large university prevented a formal partnership and the collaboration ended in the late 1990s. The Olmsted Center continues as a program of the NPS. The bulk of the collection reflects 17 signed amendments to the initial cooperative agreement between the Arboretum and the NPS (1991).

Historical Note

In 1991 the Arnold Arboretum of Harvard University signed a cooperative agreement with the [National Park Service](#) (NPS) with the purpose of setting up a structure to collaborate on a range of programs and services in the area of historic landscape preservation. The collaboration brought together the resources of the North Atlantic Region of National Park Service, which owns and manages one of the largest groups of historic gardens and cultural landscapes in the country, and the Arnold Arboretum, which has been collecting and curating plants hardy in the North Temperate Zone for over 100 years. The design of the Arboretum itself was a joint effort in the late 1880s and 1890s of landscape architect Frederick Law Olmsted (1822-1903) and Charles Sprague Sargent (1841-1927), the Arboretum's first director. This new collaboration linked the Arboretum with the [Olmsted Center for Landscape Preservation](#) housed at the [Frederick Law Olmsted National Historic Site](#) in Brookline, Massachusetts.

The cooperative agreement was signed by Robert Cook, director of the Arboretum, and by Nora Mitchell of the National Park Service. Phyllis Andersen was hired by the Arboretum in 1992 to manage the cooperative projects. Arboretum staff members that participated in the projects were: Peter del Tredici, Gary Koller, Jack Alexander, Tom Ward, and Stephen Spongberg. Project personnel hired by the Arboretum for specific projects included Kristin Claeys Baker and Kirsten Thornton. The National Park Service staff included Charles Pepper, Lauren Meier, Margie Coffin, Rolf Diamant and Paul Weinbaum. The cooperative agreement created a number of individual projects: a historic landscape maintenance workshop held in 1991, a cultural

landscape report and treatment plan for the Frederick Law Olmsted National Historic Site, plant inventories of seven National Park Service sites (Adams National Historic Park, Saint Gaudens National Historic Site, Longfellow National Historic Site,

Kirsten Thornton and Tom Ward working on the Historic Plant Nursery, Arnold Arboretum, April, 1995

Glenmont National Historic Site, Vanderbilt National Historic Site, and the Sagamore Hill Theodore Roosevelt National Historic Site). The Historic Plant Preservation project included a historic plant nursery established at the Arnold Arboretum for plants propagated from NPS historic sites to serve as future replacements for significant specimens. A guide to preparing a plant inventory for a historic site and a manual for maintaining a historic plant nursery was prepared. The historic plant nursery eventually moved from the Arboretum to the

[Lyman Estate](#) in Waltham Massachusetts owned and managed by Historic New England.

One of the final projects of the collaborative venture was a Historic Resource Study for the [Marsh-Billings National Historic Site](#) in Woodstock, Vermont. Several academic historians (Robert Dorman, Mark Madison, and Daniel Nadenicek) were commissioned to prepare segments of this site history.

One of the goals of the original collaboration was to establish the Olmsted Center for Landscape Preservation as a joint venture of the NPS and the Arnold Arboretum. After extensive planning and research, the administrative complications of joining a Federal agency and a unit of a large university prevented a formal partnership and the collaboration ended in the late 1990s. The Olmsted Center continues as a program of the NPS.

Scope and Content

Dating from 1991-2001 the collection contains correspondence, cooperative agreements, meeting notes, performance updates, photographic slides, drafts of publications, as well as budgetary, programmatic and staff information for the joint projects of the Arnold Arboretum and the Olmsted Center for Landscape Preservation of the National Park Service. The bulk of the collection reflects 17 signed amendments to the initial cooperative agreement between the Arboretum and the NPS (1991). The amendments and their supporting documents outline programmatic initiatives and extensions undertaken between the two institutions throughout the 1990's.
